Subject Index

Acanthocephalan cystacanths, cost of host sharing in, 483
African trypanosomes, of suids, phylogenetic relationships of, 625
Aggregation, analysis of, 563
Ammonia, responses of *Sanguinicola inermis*-infected carp to, 339
Anaemia, effect of anthelmintic treatment on, 105
Anguilla anguilla, metapopulation and community dynamics of helminth parasites of, 689
Anthelmintic treatment, effect of on helminth infection and anaemia, 105
Antigens, in sandfly salivary glands, 37
of *Ascaris suum*, immunization of pigs with, 699
Apis mellifera, cuticular hydrocarbon profile of, 145
Arbovirus transmission, acceleration of is triggered by host death, 439
Ascaris suum, characterization of 5-HT receptors in, 207
effect of iron deficiency on infection by in pigs, 589
immunization of pigs with antigens of, 699
nitric oxide synthase in the neuromuscular system of, 219
phosphocholine-containing antigens of, 359
Associations, between multiple species parasite infections, methods for estimation of, 233

Bank voles, component community structure of haemoparasites in, 43
Benzimidazole, binding of to *Haemonchus contortus* recombinant tubulin, 683
Biomphalaria glabrata, and *Schistosoma mansoni* genetic diversity, 545
resistance of to *Echinostoma caproni*, 651
Blood feeding, influence of host haematocrit on for *Anopheles stephensi*, 491
Body protein reserves, and immunity to *Teladorsagia circumcincta* in ewes, 661
Brackish water fishes, structure of parasite component communities in, 471
Brugia pahangi, electrophysiological analysis of responses of to chemicals, 347

Cadmium, toxicity of to encystment/excystment of *Parorchis acanthus*, 75
toxicity of to miracidia of *Schistosoma mansoni*, 81
Calcium-binding protein, a novel EF-hand form of in *Tritrichomonas suis*, 125
Carbohydrate metabolism, in *Fasciola hepatica* miracidia, 169
Carp, response of to ammonia during infection with *Sanguinicola inermis*, 339
Cathepsin D, from *Schistosoma japonicum* cleaves human IgG, 415
Characterization, of folate pathway genes of *Plasmodium falciparum*, 1
Clethrionomys glareolus, haemoparasites in, in NE Poland, 43
Community dynamics, of helminth parasites of eels, 689
Compatability and sex, in a snail-schistosome system, 423
Concerted evolution, ITS-2 studies aid understanding of, 195
C-reactive protein, and transformation of *Leishmania mexicana*, 521
Culex fuscanus, rDNA phylogeny of *Intrapredatorus barri*, parasitic in, 617
Cuticle heterogeneity, and phylogeny of parthenogenetic root-knot nematodes, 111
Cuticular hydrocarbons, of *Apis mellifera*, 145
Cystatin, cloning and expression of from *Haemonchus contortus*, 371
Cytokine mRNA expression, in pigs infected with *Schistosoma japonicum*, 299

Density-dependent fecundity, analysis of in human schistosomiasis, using Deming regression, 161
Detection, of *Leishmania infantum* in Brazilian dogs, 253
Dihydrofolate reductase gene, mutation rates of in *Plasmodium falciparum*, 497
rDNA phylogeny, of *Intrapredatorus barri*, 617
Echinococcus granulosus, expression of the *14-3-3*, gene in, 281
Echinococcus multilocularis, expression of the *14-3-3* gene in, 281
Echinostoma caproni, resistance of *Biomphalaria glabrata* to, 651
EF-hand calcium-binding protein, in the flagellum of *Tritrichomonas suis*, 125
Eimeria telekii n.sp., life-cycle and phylogeny of, 133
Electrophysiological analysis, of responses of *Brugia pahangi* to chemicals, 347
Entomopathogenic nematodes, further evidence of convergent evolution amongst, 181
Epidemiological implications, of the phloem-restricted SL RNA genes of *Phytomonas*, 289

Faecal egg count, variation of in *Schistosoma mansoni*, 537
Fasciola hepatica, energy metabolism of, 169
Fecundity, density dependence of and circulating antigens in human *Schistosoma mansoni* infections, 161
regulation of in nematodes of reindeer, 673
Filarial infection, of Indonesian transmigrants, 633
Filarial nematodes, a phylogenetic analysis of, 93
FMRF amide-related peptides, physiological effects of on *Procerodes littoralis* muscle, 447
Folate pathway genes, of *Plasmodium falciparum*, 1
Fyn-like tyrosine kinase, from *Schistosoma mansoni*, 317

Gamebirds, differential impact of a shared nematode parasite in, 187
Gastrointestinal nematodes, resistance of Soay sheep to is associated with IFN-γ microsatellite polymorphism, 571
14-3-3 Gene, comparative analysis of, and its expression in *Echinococcus granulosus* and *Echinococcus multilocularis*, 281
Genetics, of *Biomphalaria glabrata–Schistosoma mansoni* compatability, 427
Genetic structure, of *Schistosoma mansoni–Biomphalaria glabrata*, 545
Genetic typing, of *Leishmania donovani*, 393
Geohelminths, investigation of associations of with malaria spp., 233
Gp63 gene polymorphism, in *Leishmania donovani*, 25
Gp63 intergenic regions, PCR amplification and restriction analysis of for *Leishmania donovani*, 393

Haematocrit, of the host, influence of on blood feeding success of *Anopheles stephensi*, 491
Haemonchus contortus, binding of benzimidazole to recombinant tubulin isotypes from, 683
cloning and expression of cystatin from, 371
Haemoparasites, of *Clethrionomys glareolus* in NE Poland, 43
Heat shock, response to in *Taenia solium* and *T. crassiceps*, 583
Herpestes ichneumon, a possible reservoir host of visceral leishmaniasis, 531
Host sharing, cost of in acanthocephalan cystacanths, 483
5-HT receptors, characterization of in *Ascaris suum*, 207

Immunity, to *Teladorsagia circumcincta* in ewes, 661
Immunization, of pigs with *Ascaris suum* antigens, 699
Immunohistochemistry, of phosphocholine antigens of *Ascaris suum*, 359
Interferon gamma, microsatellite polymorphism of affects resistance to gastrointestinal nematodes, 571

Internal transcribed spacer-2, microsatellite variability in for *Metastrongylus*, 195
Intracellular differentiation, of *Leishmania amazonensis*, kinetics of, 263
Intrapredatorus barri, rDNA phylogeny of in *Culex fuscanus*, 617
Intra-host model, to describe *Plasmodium falciparum* parasitaemia, 379
Iron deficiency, effect of on *Trichuris suis* and *Ascaris suum* infections in pigs, 589

Kinetics, of intracellular differentiation of *Leishmania amazonensis*, 263

Landscape features, and infection by a malaria parasite, 507
Leishmania amazonensis, intracellular differentiation of, 263
Leishmania donovani complex, restriction analysis of PCR amplified gp63 intergenic regions of, 393
Leishmania donovani, Gp63 gene polymorphism and population structure of, 25
Herpestes ichneumon is a possible reservoir host for, 531
Leishmania infantum, detection of in Brazilian dogs, 253
diagnosis of with PCR-ELISA, 607
Leishmania mexicana, and C-reactive protein, 521
Leishmania (*Vianna*) subgenus, nuclear DNA sequence specific to, 405
Lemniscomys striatus, isolation of *Eimeria telekii* n.sp. from, 133
Leuciscus cephalus, myxosporidia and macrophage centres in, 55
Life-cycle, of *Eimeria telekii*, n.sp., 133
Litomosoides sigmodontis filariasis, microfilaraemia resistance and susceptibility in, 641
Liver injury, and nitric oxide synthase in murine schistosomiasis, 309

Malaria spp., investigation of associations of with geohelminths, 233
Malaria therapy, use of mathematic model for, 379
Malaria transmission, host haematocrit and mosquito bloodmeals, 491
Mathematical model, to describe *Plasmodium falciparum* parasitaemia, 379
Meloidogyne spp., cuticle heterogeneity and phylogeny of, 111
Membrane localization, of NTPase on *Toxoplasma gondii*, 15
Metapopulation dynamics, of helminth parasites of eels, 689
Metastrongylus, microsatellite variability in ITS-2 of, 195
MHC molecules, internalization of in the host by *Leishmania amazonensis* intermediate stages, 263
Microfilaraemia, in *Litomosoides sigmodontis* filariasis, 641
Microsatellites, in *Metastrongylus* ITS-2, 195
Molecular marker, for *Leishmania* (*Vianna*) subgenus, 405
Monogenean community structure, of the gills of *Pimelodus albicans*, 465
Multiple species parasite infections, methods for estimation of associations between, 233
Muscle physiology, of *Procerodes littoralis*, 447
Mutation rates, in the dihydrofolate reductase gene of *Plasmodium falciparum*, 497
Mutation scanning analysis, of microsatellite variability in ITS-2 of *Metastrongylus*, 195
Myxobolus cyprini, in *Leuciscus cephalus*, 55
Myxosporidia, in chub, 55

Nematodes, regulation of fecundity of in Svalbard reindeer, 673
Neuromuscular system, of *Ascaris suum*, characterization of nitric oxide synthase in, 219
Nitric oxide synthase, in *Ascaris suum* neuromuscular system, 219
inhibition of and liver injury in murine schistosomiasis, 309
Nitric oxide synthases, distribution of immunoreactivity to in *Schistosoma mansoni* nerve tissue, 87
Nuclear DNA sequence, specific to *Leishmania* (*Vianna*) subgenus, 405
Nucleoside triphosphate hydrolase, localization of on *Toxoplasma gondii* membranes, 15

Onchocerca microfilariae, RGD-dependent killing of in blackflies, 433
Opisthorchis viverrini, use of PCR for the detection of, in hamsters, 175
Ovis aries, resistance to gastrointestinal nematodes in is induced by IFN-γ microsatellite polymorphism, 571

Paramyosin, cDNA cloning and heterologous expression of from *Sarcoptes scabiei*, 555
Parasite component communities, the structure of in brackish water fishes, 471
Parasite-mediated competition, in gamebirds, 187
Parorchis acanthus, metal toxicity to encystment/excystment of, 75
PCR-ELISA, use of in diagnosis of *Leishmania infantum*, 607
PCR, use of for the detection of *Opisthorchis viverrini* in hamsters, 175
use of in detection of *Leishmania infantum* infection, 253
Pharmacological profiles, of 5-HT receptors on *Ascaris suum*, 207
Phloem-restricted *Phytomonas* SL RNA genes, 289
Phosphocholine antigens, of *Ascaris suum*, 359
Phylogenetics, of suid trypanosomes, 625
Phylogeny, of *Eimeria telekii*, n.sp., 133
of filarial nematodes and their endosymbionts, 93
of *Leishmania donovani*, 393
of parthenogenetic root-knot nematodes, and cuticle heterogeneity, 111
Phytomonas, phloem-restricted SL RNA genes of, 289
Pigs, cytokine mRNA expression in during *Schistosoma japonicum* infection, 299
Pimelodus albicans, monogenean community structure on the gills of, 465
Plasmodium falciparum, folate pathway genes of, 1
mutation rates in the dihydrofolate reductase gene of, 497
new mathematical model to describe, 379
Plasmodium mexicanum, landscape features associated with infection by, 507
Poisson-lognormal model, use of in parasite aggregation analysis, 563
Praziquantel, effect of on tegumental damage in schistosomes, 63
Procerodes littoralis, muscle physiology of, 447
Psychomotor performance, decrease of in subjects with 'asymptomatic' toxoplasmosis, 515

Rangifer tarandus platyrhynchus, regulation of fecundity in nematodes of, 673
Red grouse chicks, analysis of aggregation of, 563
Reproduction, in sticklebacks, effect of parasites on, 457
Reservoir hosts, of visceral leishmaniasis, 531
Resistance, of *Biomphalaria glabrata* to *Echinostoma caproni*, 651
RGD-dependent killing, of microfilariae in blackflies, 433

Sandfly, species-specific antigens in the salivary glands of, 37
Sanguinicola inermis, effect of infection by on response of the carp to ammonia, 339
Sarcoptes scabiei, cDNA cloning of paramyosin from, 555
Schistosoma japonicum, cathepsin D from cleaves human IgG, 415
expression of cytokine mRNA in pigs infected with, 299
Schistosoma mansoni, and *Biomphalaria glabrata* genetic diversity, 545
density-dependent fecundity and circulating antigens in humans infected with, 161

isolation of a Fyn-like tyrosine kinase from, 317
metal toxicity to miracidia of, 81
nitric oxide synthase immunoreactivity in the nervous system of, 87
reduced tegumental damage in resistant forms of, 63
tegument formation in, 67
variation in faecal egg counts of, 537
Schistosome egg, development and secretions of, 329
Schistosomiasis, liver injury and nitric oxide synthase activity in mice, 309
Secretions, of the schistosome egg, 329
Selection pressure, effect of on Gp63 gene polymorphism in *Leishmania donovani*, 25
Shared nematode parasite, differential impact of on two gamebird hosts, 187
Snail–schistosome system, compatibility and sex in, 423
Steinernema, a self-fertile species of from Indonesia, 181
Stickleback males, effect of parasites on the reproduction of, 457
Stress, response to in *Taenia solium* and *T. crassiceps*, 583
Sudan, possible original focus of visceral leishmaniasis, 599

Taenia spp., heat shock and stress response of, 583
Tegumental damage, reduction of in resistant schistosomes, 63
Tegument formation, in adult schistosomes, 67
Teladorsagia circumcincta, immunity to in ewes, 661
Thogoto virus, transmission of, 439
Tick-borne virus transmission, acceleration of by host death, 439
Toxoplasma gondii, localization of nucleoside triphosphate hydrolase in, 15
Toxoplasmosis, psychomotor performance in subjects with, 515
Transmigrants, lymphatic filariasis in, in Indonesia, 633
Trichuris suis, effect of iron deficiency on infection by in pigs, 589
Tritrichomonas suis, a novel EF-hand calcium-binding protein in the flagellum of, 125
Tyrosine kinase, isolation and characterization of from *Schistosoma mansoni*, 317

Ultrastructure, of the schistosome egg, 329

Varroa jacobsoni, effect of parasitism by on the cuticular hydrocarbon profile of *Apis mellifera*, 145
Visceral leishmaniasis, original focus of in Sudan?, 599

Wolbachia endosymbionts, phylogeny of, 93

Zinc, toxicity of to excystment/encystment of *Parorchis acanthus*, 75
toxicity of to miracidia of *Schistosoma mansoni*, 81
